

Presentation

➤ **Introduction:**

Our company was founded by a group of well specialized leaders with great experience form middle east market. Our leaders have more than 35 years of experience in the establishments and implementation of companies and projects.

Moreover, our founders emphasize hard work and attention to details to insure the end customer of a true quality product. Additionally, Titanium 4 has the capacity and flexibility to satisfy small or large order from a wide range of quality product. As well as Titanium 4 is committed to provide its customers with product which are made to define specification and meet their required criteria with consistency.

Our first target is Qatar which has promoted a promising market and a flexible regulatory system for business ventures. Its open trade regime and growing statures as regional hub has also committed significant process in foreign investments.

➤ **Our Vision:** To become an internationally leading company that meets customer's expectations providing high quality products and services called with its capabilities of utilization of advanced technology and application of engineering solutions.

➤ **Our Mission:** To offer high quality products and services which complies with international standards within principle of a social responsibility, business ethics and environmental awareness.

➤ **Our Value:** Titanium 4 is committed to build mutual trust relationships, care about health, safety and environment principles and respect the social and cultural values in the country we are operating.

➤ **GM Message:**

It's important to meet the urgent need for housing after the rapid development in the construction field in Qatar. We are aware to the importance to consider specific needs in providing an affordable, good quality and sustainable engineers offices. Community and residential housing for workers.

We are proud to announce that our team composed of expert personnel who have worked in this field for more than 15 years in addition to the mother company who has been in the market before.

In the years ahead, together with our staff look forward to taking on new challengers with the continued support and blessing of our customers and business partners.

Yours Sincerely,
Mr. Omar AlSalhani
General Manger

- Heavy Steel Structure
- Roofing Systems, Truss & Roof Supports
- Steel Structure Support & Steel Frames
- Steel Structure Decking, Slab Extension & Support
- Roof Parapet Support & Extension for High Rise Buildings
- Skylights, Domes & Canopies
- Steel Platforms, Mezzanine Floors, Gratings & Ladders
- Bridges & Tanks

Quality Policy

We at Titanium 4 Trading & Contracting W.L.L are committed to manufacture and supply high quality products to the completed satisfaction of our customers. We will strive to become the good choice all over the work in the eyes of our customers and other stockholders.

We will achieve this through:

- Using latest CNC machinery and equipment in manufacturing process.
Using latest software for professional steel construction
- Employing high qualified and well-trained employees.
- Adopting progressive management methods that encourage a culture of quality throughout the company.
- On time delivery and competitive pricing
- Effective implementation of our quality management system and demonstrating continual improvement in all our processes.
- Achieving customers satisfaction thereby improving our customer base and ensure long term relationship with customers.
- Compliance with all statutory and regulatory requirements.

Yours Sincerely,
Mr. Omar AlSalhani
General Manager

Health, Safety & Environment Policy

HEALTH AND SAFETY ENVIRONMENT POLICY

Titanium 4 Trading & Contracting W.L.L, is committed to continuously improving the health and safety of workers and the environment. Recognizing that health and safety and Environment is a shared responsibility between management and workers, the achievement of this policy requires the full cooperation from everyone following the local and international regulations and requirements such as but not limited to QCS 2014, Qatar State Law, OHSAS 18001 BS 2007.

In order to fulfill this commitment and protect the people, the environment, and property, Steadiness Trading & Contracting W.L.L, shall provide and maintain a safe and healthy work environment according to industry standards and in compliance with other legislative requirements.

Senior Management has the ultimate responsibility in ensuring that every reasonable precaution is taken to protect the health and safety of its employees; accordingly, they shall ensure that the appropriate training is provided, including Managers and Supervisors.

It is the responsibility of every Manager and Supervisor to comply with, and promote among their employees, the company philosophy of protecting health, safety and loss control. However, every employee is responsible for protecting their own health and safety by working in compliance with legislative requirements, and the safe work practices and procedures established by the company. Furthermore, every employee is expected to report any unsafe and/or unhealthy working conditions.

Contractors and their employees shall also be held accountable for meeting legislative requirements, and the safe work practices and procedures established by the company. By working together, hazards, which have the potential to result in personal injury or illness, and/or property damage or loss, can be corrected and incidents will be avoided.

Yours Sincerely,
Mr. Omar AlSalhani
General Manager
